DIGITAL PRAISE HITS A GRAND SLAM

FREMONT, CA - Digital Praise Inc, a leader in Christian themed, family-friendly entertainment software, knocks one out of the park for fans of Dance Praise™, the company's popular PC-based dance arcade game, via the debut of the *Dance Praise Super Deluxe Combo Pack*: an all-in-one collection of Dance Praise contemporary Christian music, paired with the Dance Praise game, three Expansion Packs, and two Dance Praise super deluxe dance pads. The *Dance Praise Super Deluxe Combo Pack* gives enthusiasts the ultimate Dance Praise experience at a significant savings.

The *Dance Praise Super Deluxe Combo Pack* includes all four original Dance Praise music collections - each a home run in its own right. The library of artists include:

- **Dance Praise Original** - Audio Adrenaline, David Crowder Band, Newsboys, Out of Eden, Steven Curtis Chapman, ZOEgirl and 18 others;
- **Expansion Pack Volume 1: Modern Worship** - Chris Tomlin, delirious?, Lisa McClendon, Matt Redman, Paul Wright, Vicky Beeching and 10 others;
- **Expansion Pack Volume 2: Hip-Hop/Rap** - tobyMac, DJ MAJ, Grits, LA Symphony, The Katinas, KJ-52, and 5 others;
- **Expansion Pack Volume 3: Pop & Rock Hits** - Jeremy Camp, Kutless, Rebecca St. James, Relient K, Sanctus Real, Jars of Clay, Stacie Orrico, Tait and 16 others.

In all, 54 Christian acts and over 150 songs are represented on the *Dance Praise Super Deluxe Combo Pack*, with more than 450 distinct dances possible. "Dance Praise has become an immense hit because it delivers what kids, families and churches want most - uplifting and top-quality original tunes from the best of contemporary Christian music, presented in a totally fun and energetic way," said Tom Bean, President and CEO of Digital Praise Inc. "As more and more churches and even families have found out about Dance Praise, they've wanted not only the game itself but also the greatest variety of hits. *Dance Praise Super Deluxe Combo Pack* gives them that variety at the lowest price possible."

Adding to the enjoyment of the *Dance Praise Super Deluxe Combo Pack* are the two super deluxe pads. The super dense, one-inch thick foam inserts in the pads eliminate stress on players' feet and knees, while also providing a perfect balance between fast reaction times and comfort. Using these ultra-durable pads, dancers can play longer and rack up higher scores at the same time!

Digital Praise's Dance Praise arcade game, which debuted in late 2005, continues to impress users and critics alike due to its challenging, high-energy format and high-quality game interface. The computer game, suitable for both Windows and Mac operating systems, pits players against an onscreen display of scrolling arrows. Dancers have to keep up by stepping on the corresponding arrows on their pads. Multiple dance modes allow dancers to compete alone or in pairs, even using Dance Praise as a great cardiovascular workout.

Dance Praise also gained kudos from the experts in 2006, winning top awards from Family Choice, Christianity Today magazine, iParenting magazine, Parents' Choice, and Children's Technology Review. The game won the People's Choice award at the 2006 Christian Game Developer's Conference.

Digital Praise is an independent developer and publisher of family-friendly entertainment software for personal computers. The company produces and publishes faith-based and mainstream titles for families looking to enjoy interactive entertainment software with principled character-building themes and "just good clean fun."
